Grade : **PT120**

General Purpose: Thickening agent

Main Component: Special additives and resins.

Product Features: Reducing the amount of raw materials consumed by maintaining quality and mechanical properties (based on the volume and area of the produced piece), Improve the Tear Resistance, Thickening agent, Improve the elasticity, increase the reaction speed as catalyser, save the energy, increase the output, No bad effect on Mechanical property of final products, Anti Settling and Anti Sagging.

Application: All kind of PU : Furniture foams, Shoe Sole, Coating & Paint, Interview parts and etc., Polyurethane Coatings & Adhesives, Polish Waxes and etc.

Recommended dosage: 0.01~0.1%

Packing: Net Weight 20kg New Steel Drum

Typical values

Density at 20°C 0.97

Viscosity in CPS at 40°C 45,000 – 60,000

Colour, Gardner scale 10
